

WWF & the Mai Ndombe, Democratic Republic of Congo Emission Reductions Program partners cordially invite you to attend the side event:

**LANDSCAPE REDD+:
THE BIGGEST NEW GAME IN FOREST MANAGEMENT;
BUT WHERE ARE THE FORESTERS?**

Thursday, 10 September, 2015
12:45-14:15
Meeting room 21AB
English with French translation

This session will focus on the design of the largest landscape REDD+ project in Africa, and will draw on this and other examples from across the world to examine the principles of Landscape REDD+ design and explore how the forestry sector can more fully engage in this work.

Facilitator

Mr. Paul Chatterton
WWF

Panelists

Mr. Victor Kabengele
Government of DRC

Mr. Andre Aquino
World Bank

Mr. Flory Botamba
WWF

Ms. Tracy Johns
Wildlife Works Carbon

Mr. Olivier Mushiete
Novacel

Mr. Guy Kajemba
Groupe de Travail du Climat et REDD+

This session will focus on the design of the largest landscape REDD+ (reducing emissions from deforestation and forest degradation) project in Africa, the Mai Ndombe Emission Reductions Program covering 13 million hectares in high deforestation forests north of Kinshasa, Democratic Republic of Congo.

We will draw on this and other examples from across the world to examine the principles of Landscape REDD+ design and explore how the forestry sector can more fully engage in this burgeoning sector.
