

**WWF New Generation Plantations,  
Mondi & IUFRO cordially invite you to  
attend the side event:**

**EXPERIENCES OF IMPLEMENTING THE  
RESILIENT LANDSCAPE APPROACH IN UMNGENI  
CATCHMENT, SOUTH AFRICA**

**Wednesday, 9 September, 2015**

**12:45 – 14:15**

**Hall 3BC**

*Lunch will be provided*

An interactive workshop to catalyze dialogue and deliberations on the Resilient Landscape Approach (RLA) that WWF has developed and is testing in the uMngeni catchment, in which Durban is situated.

**Facilitators:**

**Dr. David Lindley**

*Manager, WWF-Mondi Wetlands Programme  
WWF-South Africa*

**Mr. Luis Neves Silva**

*Manager, New Generation Plantations  
WWF Global Forest Programme*

**Mr. Brent Corcoran**

*Environmental Manager – Forestry  
Mondi South Africa Division*

**Mr. Marc Palahi**

*Director, European Forest Institute*

## Objectives:

- Share the concept & lessons learnt of the Resilient Landscape Approach & New Generation Plantation platform.
- Deepen participant understanding of working at a landscape scale within the context of their own countries.
- Illustrate how social learning techniques can be utilised to support meaningful learning, and potential social change, in landscape approaches.
