

## Invitation

# Integrating nature and climate frameworks to unlock private finance

**Save the date: 14<sup>th</sup> Dec, 12- 1pm EST, Small Room, Nature Positive Pavilion**

Join WWF-UK and partners to discuss how private finance for nature can be unlocked by considering nature alongside climate in key emerging policy frameworks and tools.

During the event we will set out the foundational architecture needed to finance nature goals, mirroring that of climate, and discuss how financial institutions can progress the nature positive transition, including, through building nature into their climate transition plans, and utilising existing tools and data sources. The event will discuss how CBD, Governments, and Finance Ministries can unlock nature financing at scale by supporting and incentivising financial institutions to deliver the CBD's Global Goals.

### **Moderator:**
