

What are you doing for forests?

Forests for Life

Durban, September 2015

LANDSCAPE APPROACH

A landscape approach to halting deforestation entails working across sectors and beyond the scale of individual farms, forest management units and protected areas to secure food, fibre and energy production, improvements in improved livelihoods and ecosystem conservation.

Tell us in 140 characters (25 words) or less what you're doing at the landscape level to safeguard forests: ([Email your suggestions here](#))

STOP
DEFORESTATION
