

# What are you doing for forests?

## Forests for Life

Durban, September 2015

## PROTECTED AREAS & INDIGENOUS RESERVES

Well-managed **protected areas**, including **indigenous reserves**, can provide sanctuaries for biodiversity and serve as a reservoir for future restoration. Ideally they should be well connected and large enough to ensure wildlife can move freely and ecological processes continue to function.

Tell us in 140 characters (25 words) or less what you're doing to strengthen indigenous reserves and protected areas:
