## Forests for Life

Durban, September 2015

# RESPONSIBLE FOREST MANAGEMENT

**Responsible forest management**, motivated by a commercial interest in maintaining wood supply, can help protect vulnerable forests from illegal logging, encroachment or conversion to farmland. Forest management that is environmentally sound, socially just and economically viable, can help meet society's needs without depleting natural capital.

Tell us in 140 characters (25 words) or less what you're doing to promote and/or strengthen responsible forest management:

[\(Email your suggestions here\)](#)

**STOP**  
**DEFORESTATION**
